Mission Statement

Greenfield Union School District is a student centered district dedicated to preparing each student for a life which is productive academically, physically, socially, emotionally and economically.

District Profile

On behalf of the Greenfield Union School District, I would like to welcome you to our district. Our devoted community, employees and 8,200 Kindergarten through 8th grade students take great pride in our schools, unmatched throughout our county and state. We are a dynamic community in south Bakersfield, totally dedicated to children and focused on the whole child. Our Board of Trustees has set the tone for developing the excellent reputation Greenfield Union School District currently enjoys. Our excellent and comprehensive elementary school programs, after school programs, working relationship with our local universities, innovative and effective business practices, and partnerships with our business community serve as our foundation for educating each child.

Operating 10 schools (7 elementary and 3 middle schools), Greenfield Union School District is experiencing growth of approximately 4%-5% per year. It is anticipated that an estimated 2000 homes will be constructed within the next 5 years increasing our enrollment to an estimated 10,400 students. Two new elementary schools will open during each of the next two years with a fourth middle school planned for the near future.

The cultural diversity within our district demands a highly qualified work force including teachers, administrators, classified staff, and other support staff. We take great pride in providing our children the most qualified teachers and support staff possible. This fact is the foundation for the annual increase in our Academic Performance Index (API) for the State of California Content Standards.

Our commitment to meeting the expectations of today's society is evident as outlined within our Greenfield Union School District Mission and corresponding Value Statements. Our desire to educate the "whole child" has resulted in the development of several supplemental programs including Migrant/ELD, Pre-School Ready to Start Program for 4-year-olds, After School Success Program (ASSP), and a School Resource Officer (SRO).
