### **Mission Statement**

We believe that a successful school experience requires cooperation between home and school.

### **District Profile**

Our staff is small but very dedicated and willing to go beyond the call of duty. We work hard to provide an excellent education for our students. Instruction in each classroom is based on the California Content Standards, and it is supplemented with quality field trips, assemblies, sporting events, a computer lab, and our Renaissance program for recognizing student achievement.

We have used part of our money we received from a recent bond measure to put in a brand new playground. It is an awesome sight and our students really enjoy it! We have also purchased new computers and new software for the computer lab. Currently, we are in the process of remodeling the classrooms in the west wing and the office.
