3 Elementary Schools

1 Middle School

1 High School

1 Alternative School

1 Continuation School

Enrollment 3,461

**Mission Statement**

We work together to provide academic, artistic, athletic, and technical education so that our students will be well-rounded people, capable of making informed decisions.

**District Profile**

Southern Kern Unified recognizes the individual, academic, and social differences and needs of each student. Small class sizes, including class size reduction in K-3, and programs such as Afternoon Academy and the Gifted and Talented Education program (GATE) help motivate our students to achieve their goals. We believe that our quality education is the result of a strong partnership between our school and parents. Our staff provides a safe environment in which students can be academically challenged to meet their potential

Rare Earth is an alternative continuation high school program. It is an alternative to the “traditional” comprehensive high school. Small class sizes offer an opportunity for individual assistance. Academic instruction offers courses necessary to complete high school graduation requirements. Rare Earth’s goal is to provide an environment in which students who exhibit effort, perseverance, and motivation will find success
