Mission Statement

Welcome to Corcoran Unified School District. Our Board, community and district have a common goal of becoming a “Destination District”. This vision is becoming a reality with our continued growth in student academic achievement and positive, professional culture that encourages innovation and personal growth. We are very proud of the superb, hard working staff members who are creating a culture of excellence for our students.

We are also excited about the District’s commitment toward student learning using 21st Century learning tools via the One to One Laptop Learning Program. Our District has leased over 1,000 laptops the past two years in beginning our program in every English Language Arts course grades 7-12 and Mathematics grades 6-12. This commitment includes a focus on academic achievement with a priority in developing staff members using these powerful learning tools.

The early results are encouraging along with the enthusiasm and excitement from students and staff.

The District will also break ground soon for its 22,000 square foot Technology Learning Center Facility. This technology rich, state-of-the-art facility is designed for staff development, job training for the community and will offer courses grades 11-18.

The enthusiasm and excitement of our continued growth in the many dimensions of our District is just starting to catch up with the high expectations we have for every student at Corcoran Unified.
