2 Elementary

Total Enrollment: 425

Profile

Welcome to the Kit Carson Elementary School web page! Here you can find some information about our school and our district. Since home and school unity and cooperation are keys to school success, we hope that you will gain a better understanding of our school community through the information provided. We encourage all community members to visit and become familiar with our unique small school.

Kit Carson Elementary School has a long-standing tradition of excellence. We have received reward funds from the state in the past for our academic excellence. Our Academic Performance Index (API) scores have continued to increase; however, we continue to explore new educational ideas and trends to improve our effectiveness with children.

Kit Carson School has accomplished many projects in recent years. We have painted the school and given it a much brighter modern look; we have modernized four classrooms and the cafeteria; we have built a new playground; we have implemented a band program; we have started a preschool; we started our After-School Adventure Program serving close to 80 students a day; we modernized our network infrastructure and are in the process of installing a tower for wireless internet access.

We will sustain and improve the quality of our academic program and will continue to look for ways to provide intervention for students who are at risk of academic failure. We're striving to be a full-service school providing for the needs of all the children of our community.
