2 Community Day

Enrollment: 2584

Mission Statement

The mission of the Reef-Sunset Unified School District is to provide each unique student equal access, in a safe and secure environment, to a diverse quality educational program that prepares him/her to be a fully functioning member of society.

Profile

Agriculture has now replaced the importance of the oil industry. Today many of the children of the residents of Avenal and Kettleman City work in the agricultural fields. Many students are immigrants whose primary language is Spanish. Other students are descendents of the district's original residents.

The district has eleven schools, ranging from pre-school through adult school. Pre-schools are located on elementary school campuses. Two elementary schools enroll students who live in Avenal. Another elementary-middle school serves the students who live in Kettleman City. A middle school is home to Avenal students who are in grades six, seven, and eight. All district students matriculate into Avenal High School. Alternative education services serve high school students and two community day schools serve students who have been expelled. Avenal Adult School offers classes including high school diploma course work to all adults.

The name of the district, Reef-Sunset, was chosen to represent local geographic, historic, and scenic areas. All are visible from the city, which is located in a small valley set between mountains in western Kings County.
